REF. PREGÃO PRESENCIAL Nº 038/2021

EMENTA: Parecer Jurídico acerca de processo de licitação –PREGÃO PRESENCIAL nº 038/2021. Análise das minutas do edital e do contrato respectivo, que objetiva a “aquisição de EPIS (álcool, avental, luva, macacão, máscara, protetor, touca) e termômetro digital para as Secretarias de Educação e Assistência Social de Sussuapara-PI”. Instrumentos que se harmonizam com a modalidade e tipo apontados, de modo a cumprir os fins do processo seletivo e ao interesse público, nos termos da Lei nº 10.520/02 c/c a nº 8.666/93.

A Pregoeira Oficial da Prefeitura Municipal de Sussuapara-PI, submete a exame o **Pregão Presencial nº 038/2021**, que tem como objeto a aquisição acima especificada.

A opção pela modalidade Pregão Presencial se harmoniza com o volume dos recursos e com a natureza da seleção.

Entretanto, não basta adequar a modalidade e o tipo ao objeto do processo seletivo. Importa, também, cumprir os ditames do art. 38 da Lei nº 8.666/93, principalmente quanto à autuação, protocolo, numeração de folhas, criação de pasta, numeração de processo, resumo do objeto, data de abertura do processo, indicação de fonte de recursos, etc.

Ressalta-se a necessidade da comunicação direta do resultado final da abertura da licitação a todas as empresas participantes, exceto se este ato for praticado na sessão para o recebimento das propostas.

O fato é que, estão estabelecidos no Edital e na minuta do respectivo contrato, os preços, o objeto com suas especificações, as condições de participação dos licitantes, o prazo de vigência do contrato, os critérios de habilitação, a apresentação dos documentos e propostas, critérios de abertura de envelopes, exame e julgamento das propostas, recursos administrativos, e condições gerais, além de ficarem definidos data, horário e local de abertura de propostas.

The first part of the report deals with the general situation of the country and the progress of the work done during the year. It also mentions the names of the members of the committee and the places where they have been working.

The second part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

The third part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

The fourth part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

The fifth part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

The sixth part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

The seventh part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

The eighth part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

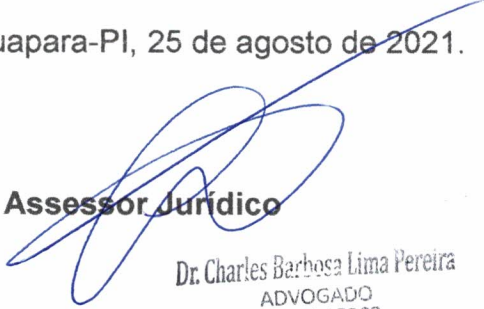

The ninth part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where they have been working.

Com essas considerações, conclui-se que os documentos sob análise atendem, na essência, as diretrizes da Lei de Licitações, e, especialmente, instrumentam suficientemente (segundo o interesse público) o cumprimento do objeto do pregão.

É o nosso Parecer, S.M.J.

1. Introduction

2. Methodology

3. Results

4. Discussion

The study was conducted in a laboratory setting. The participants were recruited from a local university. The data was collected over a period of six weeks. The results show a significant increase in the number of participants who completed the task. This suggests that the intervention was effective in improving performance. The findings are consistent with previous research in this area. Further studies are needed to explore the long-term effects of the intervention.

5. Conclusion

6. References

The study was supported by a grant from the National Science Foundation. The authors would like to thank the participants for their contribution to the study. The data was analyzed using SPSS software. The results are presented in the following tables and figures.
